Umpire Question Much in Evidence in Baseball Circles.

Mileage of Kings County Wheelmen for March.

The League baseball season is scarcely week old, yet the umpire question is bert. dready very much in evidence. Jim gave an at times painful exmistakes in decisions as on account of the apparent lack of respect the players the apparent lack of respect the players and for his position. After last Saturday's game the Baltimore people said Lynch was a home umpire, although his work was glit-edged when New York was being drubbed in Baltimore. Of course, it makes a difference whose ox is gored. The suggestion has been made, to at it would be better if retired ball-players were not appointed umpires. One great trouble nowadays is that the umpire is not treated with sufficient dignity by players. This is more apt to be the case when the umpire is an explayer. It is hardly to be expected that a man who has associated with ball-players as one of them for years will be halled as Mr. Umpire, as the rule requires, especially when these players are under the impression that that man is now an umpire, because he has become a back number as a ball-player.

It is true some players might call the greatest dignitary in the land by his given name, but the inclination to do so twould be much smaller if they had not known him. "An umpire by his bearing must command respect on the ball field," said Harry Wright the other day. When a man has been slapped on the back and dubbed "Jim" or "Jack" for years it is pretty hard for him to inspire the respectful treatment that a comparative stranger would do.

During the month of March the mileage of the Kings County Wheelmen was ond for his position. After last Satur-day's game the Baltimore people said
